Declares that the product(s) All scanner products

Category Large Format Scanner

Are manufactured following the provisions of:

Council Directive 2014/30/EU+2015/863 (RoHS Directive)

NOTES: ENVIRONMENTAL ROHS AND REACH STANDARDS

All Global Scanning sites are committed to managing the use of chemical substances and comply with EU Restriction of Hazardous Substances (RoHS) legislation under EU parliament directive 2011/65/EU +2015/863 issued December 2015 on the restriction and use of certain hazardous substances in electrical and electronic equipment. Components used in its scanner products are sourced to minimise toxic impact on the environment during the manufacture, operation and disposal phases. Additionally scanner manufacturing operates according to REACH directives that place restrictions on chemicals that suppliers can use to make the components supplied to Global Scanning.
